

## COVID Guideline Updates December 18, 2020

With careful consideration of our experiences since August and the updated CDC guidelines, Resurrection Lutheran Academy's COVID policy is being updated as of January 4, 2021. Please review the following changes with regards to our quarantine protocol. All other policies and procedures (i.e. masks, daily checklists) will remain the same.

If an individual is identified as a **CLOSE CONTACT**, but is **NOT SHOWING SYMPTOMS**

- That student must quarantine for **10 days** from the last point of contact
- All other children in the household may continue to attend classes in person
- If anyone in the household develops symptoms within 14 days of contact, all students must then transition to home-based learning

It is our hope that this reduces the school-wide impact for a positive COVID result while still maintaining the safety guidelines. As a reminder, please contact the office immediately in the event that anyone in your household is identified as a close contact, tests positive, or develops symptoms consistent with COVID-19. Your partnership is essential to help protect our RLA community and our ability to continue in-school education. We are optimistic about turning a corner with the virus, however, we must be vigilant, respectful, and considerate until it is under control in our community. Let us know if you have any questions or concerns.
